Since 1997 • 45 Locations • Serving 48 States*

Check out our Eco

At Fabricare Choice, we know that you and your customers are concerned about the environment. So are we.

Fabricare Choice Distributors Group is committed to providing you with new and innovative ideas to help you keep up with the ever increasing need to promote your company's brand in conjunction with your environmental position.

Clean Green poly bags with a bio-degradable additive reduces the life span of the bag. Strength and functionality are the same as conventional poly and can be reused and recycled.

Paper bags, hanger caddy's, hanger tags, and hanger covers all made with post consumer paper to help reduce the impact on our shrinking landfills.

We're committed to doing our part...to help you:

REDUCE > REUSE > RECYCLE

CLEAN GREEN POLY BAG

These eco-friendly poly bags are a great way to show your customers that you take being "Green" very seriously. By increasing the awareness level to your customers, you help promote your companies environmental position.

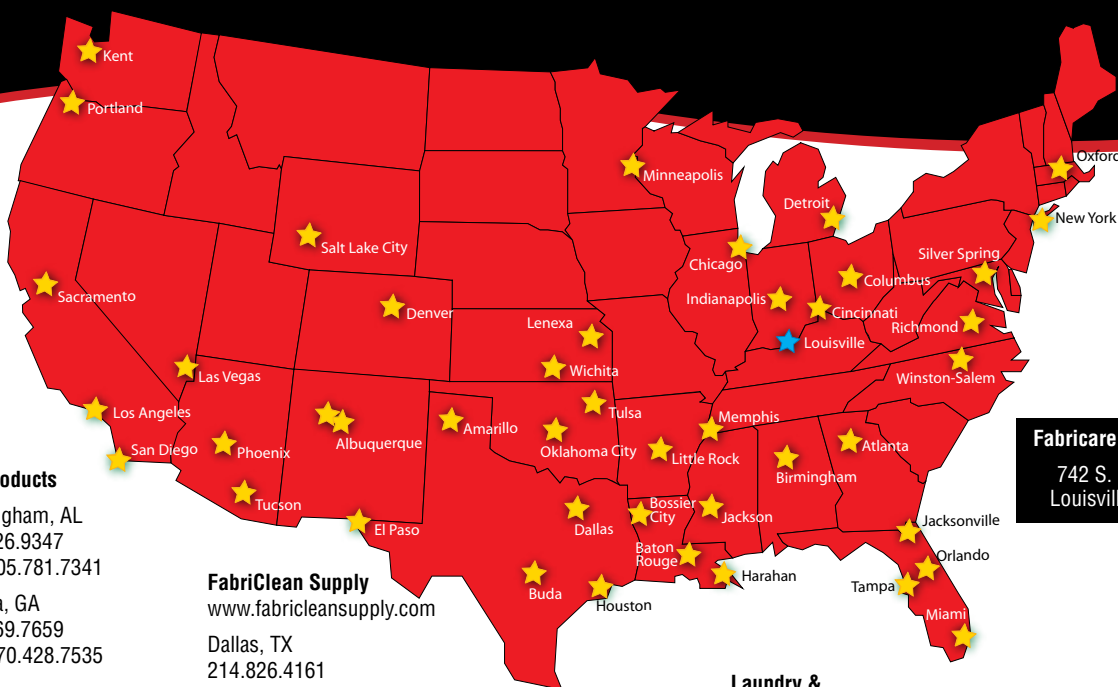

Features include:

- Clean Green poly bags are printed using water based environmentally friendly inks (2 colors green/blue)
- All garment bags available in multiple weights, lengths and gauges.
- Clean Green poly available in perforated, heat seal or as tubing garment film.
- Personalized Clean Green poly with your cleaners name, address or logo.

The Fabricare Choice Distributor Group is dedicated to providing customers like you with the very best in goods and services - always at the most competitive prices. With every member in every market, our No.1 goal is to build long-term, mutually profitable and productive relationships.

What is the Fabricare Choice Distributors Group?

Fabricare Choice Distributors Group is a cooperative that is 100% owned by 20 independent wholesaler-distributors with supply-house operations across the nation. It's the only marketing and buying group of its kind in the laundry and dry cleaning supply industry! Established in 1997 and based in Louisville, this national alliance works to boost the sales and marketshare of its members and vendor partners, while delivering first-rate products and services at competitive prices to you, the customer.

Who are these Fabricare Choice Companies?

The typical Fabricare Choice member is an independent, family-owned, family-operated business. Our members are well-established leaders in their local markets, respected not only for the size and the scope of their operations, but also for their progressive approach to the business.

Where are the Fabricare Choice Distributors Located?

Fabricare Choice Distributor's Group currently have 45 warehouse locations strategically located across the U.S. with service capabilities in every major market area. See the map on the previous page for a location nearest to you.

Why Should a Laundry or Dry Cleaner Want to Buy from a Fabricare Choice Distributor?

- Access to major national brands and high-quality private-label products.
- Everyday value pricing, thanks to Fabricare Choice's exclusive volume buying agreements.
- Order-processing flexibility, accepting your purchases by phone, fax, e-mail or in person.
- Timely deliveries to your door or inside your facility with 45 stocking locations.
- Readily accessible service and technical support for your laundry and dry cleaning chemicals from seasoned sales professionals.
- Thirty-day credit terms for all qualified accounts.
- Customer-friendly return-goods policies.
- A wide array of special services, including:
 - Vendor-managed inventory programs
 - Customized inventories, including low-demand or hard-to-find products
 - Regular, timely updates on Material Safety Data Sheets to keep you 100% OSHA-compliant
 - Periodic product-usage reports to guide your purchasing and inventory control
 - Closed-loop delivery of dry cleaning solvent

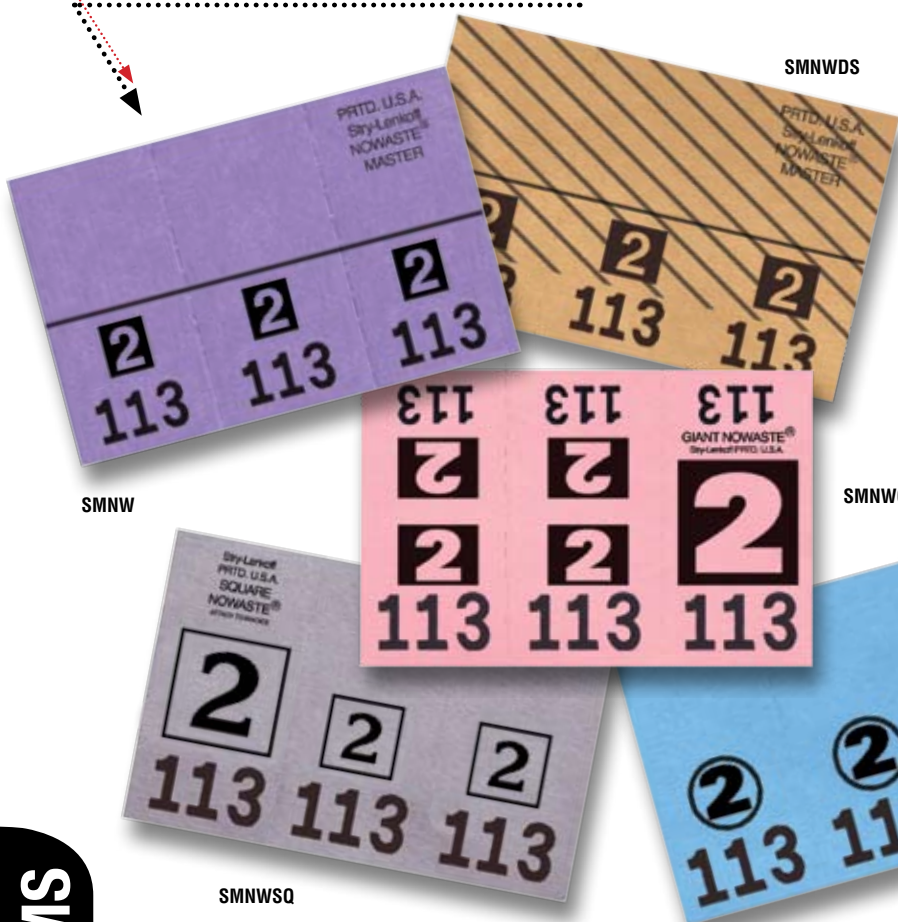

Your ONLY One-Stop Shopping Source for Supplies!

You can count on your Fabricare Choice distributor for everything you need. We are your ONLY true One-Stop shopping source for supplies. Whether you need dry cleaning solvent or other regulated chemicals, or you just run low on hangers or poly bags, your Fabricare Choice distributor will deliver it on their own truck directly to you when you need it. Fabricare Choice distributors are "more than just a Catalog". We are committed to providing Service, Quality and Value to our customers.

We build relationships that work...for both of us! Let's work together to grow sales and cut costs in the rapidly changing laundry and dry cleaning supplies industry.

LAUNDRY NET FLAGS

Laundry Net Flags bring to the Laundry business what Flag-Tags did for the drycleaning industry - systemize your production. They take the guess work out of plant operations and they go right through the washing process. No more costly cloth flags or metal prong tags. Attach through the pre-punched holes to the outside of your net or affix instead of "rag tags" to items on which it is not desirable to have a laundry mark.

| FCP# | DESCRIPTION | SIZE | TAGS PER BOX | PRICE |
|--------|-----------------------------|-------------|--------------|--------|
| LF | Full Size Laundry Net Flags | 4" x 2 1/4" | 1000 | \$6.55 |
| LF-HLF | Half Size Laundry Net Flags | 2" x 2 1/4" | 2000 | \$7.38 |

COLOR SORTING LAUNDRY NET FLAGS

Use different colored tags for each lot, printed with a lot number if desired. Count the number of nets - count the number of net flags (plus one extra if desired for a lot control card) - simultaneously punch a hole through appropriate net count number on all the flags showing how many nets in the lot. Available in 10 stock colors with chart only or with chart and stock lot numbers as seen to the side.

| FCP# | DESCRIPTION | STOCK COLORS AVAILABLE | SIZE |

RELEASE
VINYL COATED and
POLYURETHANE COATED FABRICS

Vinyl coated fabrics cannot be drycleaned because drycleaning solvent attacks the vinyl. When the vinyl becomes stiff, it cannot be corrected because the plasticizer which is used to keep the vinyl supple has been removed. Other plastic finishes such as imitation suede are subject to the same difficulty.

Polyurethane coated fabrics are sometimes drycleanable where the manufacturer has properly bonded the polyurethane to the inner fabric. All too frequently the manufacturer has not taken the time or used the right material to insure a permanent bond. The result is peeling, change of texture and sticking together of the surface of the fabric in drycleaning.

I have read the above statement and understand that you will clean the garment using either the drycleaning procedure or the wetcleaning procedure. If the wetcleaning procedure is used, you will not be held responsible for shrinkage or change of appearance if it should occur. If tests indicate that drycleaning is preferable, you will not be responsible for any damage should it occur.

Date _____ Name of Customer _____

SL-15

ACCEPTANCE SLIP FOR
LEATHER & SUEDE GARMENTS

In addition to the usual normal wear, suede and leather garments are susceptible to hazards inherent in the fact that leather and suedes are skins of animals.

(1) Certain areas of the animal (belly) if used are tender and may become chafed in processing. (2) Heat and moisture cause skins to become tender, brittle or stiff. (3) Badly faded skins may show fade even after dyeing. (4) As in fabrics, it is not possible to remove all stains. (5) Unevenly matched skins are common. (6) Heavily soiled linings are sometimes difficult to clean satisfactorily.

I have read the above statement and understand that you will carefully process my suede or leather garment. However, I am aware of the hazards and hereby release you from all responsibility.

Date _____

Customer's Signature _____

SL-87

ACCEPTANCE SLIP FOR
RAYON/ACETATE FIBER GARMENTS

Rayon/acetate have limited serviceabilities. Even with special care in drycleaning or in wear, a poorly dyed rayon/acetate garment may suffer color loss or discoloration.

Color loss or discoloration may have resulted from spillage of food or liquid. Rings caused by spillage cannot always be removed. Normally harmless chloride salts in food and liquor will cause color loss in poorly dyed rayon/acetate.

I have read the above statements and I also understand that you will professionally dryclean my rayon/acetate garment. You will NOT be responsible for color loss, discoloration, loss of brightness, depth of color, fabric splitting, stubborn rings or shrinkage.

RELEASE
ON
CLEANING AND LAUNDERING

WE ARE NOT RESPONSIBLE FOR ARTICLES NOT CLAIMED WITHIN 30 DAYS.

We exercise utmost care in processing articles entrusted to us and use such processes which, in our opinion, are best suited to the nature and condition of each individual article.

Nevertheless, we cannot assume responsibility for inherent weaknesses of, or defects in materials that are not readily apparent prior to processing. This applies particularly, but not exclusively, to suedes, leathers, silks, satins, double-face fabrics, vinyls, polyurethanes etc. Responsibility also is disclaimed for trimmings, buckles, beads, buttons, belts and sequins. In laundering we cannot guarantee against color loss and shrinkage, or against damage to weak and tender fabrics. Differences in count must be reported, and this ticket presented, within 48 hours.

Unless a list accompanied the bundle, our count must be accepted. The company's liability with respect to any lost article shall not exceed ten times our charge for processing it.

I have read the above statement and understand that you will carefully process my garments. However, I am aware of the hazards and agree to these conditions.

Release On Draperies
& Curtains

Draperies and curtains while hanging, are subject to the deleterious effects of sunlight, heat, humidity, and air pollution. Tender areas in the fabric caused by these conditions may result in holes or tears despite our careful cleaning procedure. Sunfading may be covered by soil. Improper shrinkage treatment by the manufacturer may result in progressive shrinkage. For these reasons, we will accept responsibility for your draperies and curtains with the exceptions noted below.

I have read the above statement and I understand that you will be responsible for the cleaning of my draperies or curtains except for the following:

- 1 - Sunfading
- 2 - Color loss due to non-fast dyes
- 3 - Holes or tears due to the degradation of the fabric while hanging.
- 4 - Shrinkage due to improper preshrinkage of manufacturer.
- 5 - Water stains which may become darker from the heat of processing.

Date _____ Name of Customer _____

Printed in U.S.A. - Stry-Lenoff Co. Louisville, KY Code SL 28

SL-20

ACCEPTANCE SLIP FOR
FRAGILE SILK GARMENTS

Silk fabric has limited serviceability though it may be expensive. Even with special care in drycleaning or in wear, a poorly dyed silk garment may suffer color loss or discoloration. Also, silk yarns may result in fabric splitting or deterioration.

Color loss or discoloration may have resulted from spillage of food or liquid. Rings caused by spillage cannot always be removed. Normally harmless chloride salts in food and liquor will cause color loss in poorly dyed silk. Sunlight may cause color loss. Abrasion or chafing in normal wear can result in loss of brightness or depth of color.

The fabric may split at points of wear if the silk yarns are fine. Tight fitting garments will strain and split the fabric. Underarm deodorants, perspiration and food or liquor spillage may cause fabric splitting.

I have read the above statements and I also understand that you will professionally dryclean my silk garment. You will NOT be responsible for color loss, discoloration, loss of brightness, depth of color, fabric splitting or stubborn rings.

WETCLEANING NECESSARY

There are some instances in which certain stains or general soils are not completely soluble in drycleaning solvents. When this occurs, the garment should be cleaned by a water process known as wetcleaning.

During this process, the greatest precaution is used to prevent shrinkage, loss of color, and fabric distortion. Because some garments shrink abnormally during this process, others contain dyestuffs that are not colorfast, etc., we find it advisable to obtain the customer's permission before wetcleaning a garment.

Date _____ Signature of Representative to be Signed _____

Printed in U.S.A. - Stry-Lenoff Co. Louisville, KY Code N-1

N-1

PLEASE NOTE

The remaining stains or discolorations in this garment have been carefully examined. Further attempts to remove them may result in injury to the color or fabric.

We attach this memorandum to show that this matter has received our attention, and that you have had the best drycleaning possible consistent with safety.

INSPECTION DEPARTMENT

CUSTOMER'S PERMISSION

The remaining stains or discolorations in this garment have been carefully examined. Further attempts to remove them may result in injury to the color or fabric.

I shall be very happy to proceed with this additional work, at because of the risk involved we find it advisable to obtain the customer's permission before doing so.

Date _____

DEAR CUSTOMER:

The buttons () or ornaments () on this garment cannot stand drycleaning.

We regret that it has been necessary to add a service charge for their removal and replacement.

This note is being forwarded to explain the necessity for this additional charge, and to give you the opportunity of removing them before drycleaning next time, if you choose to save the extra charge.

Thank You.

BACK CONDITIONS

We exercise the utmost care in processing articles entrusted to us, and use such processes which, in our opinion, are best suited to the nature and condition of each individual article. Nevertheless, we cannot assume responsibility for inherent weaknesses of, or defects in materials that are not readily apparent prior to processing. This applies particularly, but not exclusively to suedes, leathers, silks, satins, double-faced fabrics, vinyls, polyurethanes, etc. Responsibility is also disclaimed for trimmings, buckles, beads, buttons, belts, and sequins. In laundering we cannot guarantee against color loss and shrinkage; or against damage to weak and tender fabrics. Differences in count must be reported, and this ticket presented in 48 hours. Unless a list accompanied the bundle our count must be accepted. The company's liability with respect to any lost article shall not exceed 10 times our charge for processing it.

DENNISON™ SOFT FABRIC GUN

The Dennison® Soft Fabric Gun safely and easily fastens tags to garments using our fine fabric fasteners. Constructed of durable plastic, this lightweight gun features a comfortable soft hand grip, gentle trigger and easy-load clip for fast tagging. Simple to operate, it is safer than conventional staples and it protects garments from tears and snags.

DENNISON™ GUN

The Dennison™ Gun provides long life and reliable use. Tags garments delicately and easily. Gun has comfortable grip and easy-to-squeeze trigger. Operating instructions included.

CHECK-IN

Dennison Products

“Our Safety Pin prices are sharp and our quality is to the point.”

POWER POINT SAFETY PINS

Manufactured from high carbon content steel - the same quality used in competitive “premium” brands. They have heavier gauges to produce tighter closing. The point is ground and buffed to ensure consistency and quality. Wrap around pin shaft creates a tighter more secure cap than the traditional “press fit” form of crimping. After nickel plating, the pins undergo a process that adds lubricity for easy penetration though the fabric and also enhances rust reduction. Black vapor barrier paper also lines the box to provide an extra level of moisture absorption to ensure rust-free pins.

| FCP# | DESCRIPTION | LENGTH | 1+ BOXES | 5+ | 10+ | 25+ | 50+ |

Welcome to the exciting world of Adco University.

Utilizing the expanding capabilities of the internet and communication technology in conjunction with the expertise of the Adco Research and Development Department, Adco is pleased to announce Adco University. Adco University will provide cleaners the ability to attend training and information sessions with the technical staff at Adco and other experts in our industry. These sessions will be at no cost to you.

Courses are scheduled approximately 4-5 weeks apart. You will receive email notification of the upcoming webinar 4-7 days prior to the session. The schedule, shown below, has been set for the remainder of 2009 and the first three months of 2010.

| Date | Time (CDT) | Topic | Presenter |
|-------------------|------------|-------------------------------------|-----------|
| October 15, 2009 | 1:00 | Processing Sweaters | Donna |
| November 19, 2009 | 1:00 | General OSHA Hazcom Training | Julie |
| December 17, 2009 | 1:00 | Product Cost Analysis | Jim |
| January 21, 2010 | 1:00 | Interpreting Boiler Test Results | Julie |
| February 18, 2010 | 1:00 | Using Combination Spotters | Donna |
| March 18, 2010 | 1:00 | Equipment Maintenance | Jim |

To receive information about upcoming courses email your plant name and your name to adcou@adco-inc.com. You will be added to our email distribution list and receive registration information for each webinar. If you have any questions contact us at 800-821-7556.

Dr. Jim Schreiner
Dean of Adco University

“The best quality at the best price...it’s in the bag.”

a catalog company sent one of your presses?"

FCP'S DRY CLEANING PRESS PADS

These long lasting covers produce the finish and durability you need. The foam pad is manufactured from open cell latex allowing heat and moisture to efficiently pass through the entire pad. Due to optimum heat, the transfer pad wears evenly, offering superior finish, first garment to last.

* *Ajax, Cissell, Forenta, Utility, Hoffman, Unipress*

PADDLE COVER SETS

All pants toppers pleat covers are made with exacting standards, as specified by the OEMs. All Fabricare Choice paddle covers are made with nylon outer cover and 21 oz. flannel sewn in. This combination allows for a proper fit thus eliminating any chance of wrinkles.

* *Ajax, Cissell, Forenta, Unipress*

PANTS TOPPERS

FCP's Pants Toppers have twill fabric on the front to hold the pants while pressing. Our covers have a sewn in pad for easy installation. The fabrics used provide good airflow for proper pants pressing.

* *Ajax, Cissell, Forenta, Unipress*

PRE-CUT FLANNEL

FCP's Pre-Cut Flannel is the same high quality materials that you would find in our Roll Goods. You save time and effort and have no waste when you buy your flannel this way. (7 collars/14 cuffs)

COLLAR & CUFF ROLL GOODS

The FCP materials offer maximum resiliency at the most economical price.

WE WILL SIZE UP YOUR NEEDS FOR YOU.

With hundreds of different makes & model numbers existing in use today, each requiring a specific size, getting the proper information is essential. Contact your local Fabricare Choice Distributor today to get exactly what YOU need!

FABRICARE CHOICE ALL STEAM IRON

Our Fabricare all-steam iron weighs less than 3 lbs. - it is so light that it won't tire out the operator. It features a comfortable heat-resistant handle and a valve system that increases steam volume, with an easy to adjust steam control. Excellent steam distribution is assured through the stainless steel base. The open design of the iron makes pressing around buttons, pockets and other hard to reach places much easier. Installation is easy, just connect the iron to your steam supplyline and you're ready to go! Available with two 7 foot Teflon high-temp steam hoses or without.

| FCP# | DESCRIPTION | PRICE (1+) |
|-------------|------------------------------------|------------|
| FCP# IR-300 | FCP All Steam Iron (without hoses) | \$79.50 |
| FCP# IR-301 | FCP All Steam Iron (with hoses) | \$99.50 |

ACE-HI ALL STEAM IRON

Comes with iron rest, two 7' Teflon hoses and one hose sleeve. This quality iron is comparable to Naomoto HSP-410 at a lower price. A one year warranty is provided, including replacement parts.

| FCP# | DESCRIPTION | PRICE (1+) |
|----------|------------------------|------------|
| AHI-4175 | AHP-300 All Steam Iron | \$169.99 |

ACE-HI STEAM ELECTRIC IRON

The new improved model is an inexpensive light-weight iron. The rugged construction withstands heavy day-to-day use. This iron comes with a six month service warranty. Should be used with SR-3 Steam Regulator.

| FCP# | DESCRIPTION | PRICE (1+) |
|----------|-----------------------------|------------|
| AHI-4200 | AH-2100 Steam Electric Iron | \$277.00 |

*Price for Steam Regulator not included.

ACE-HI GRAVITY FEED STEAM IRON

Comes with a water bottle, and hose accessories. Light weight, especially designed for women operators. It gives a faster steam response just like steam irons. A one year service warranty is provided, including replacement parts. Comparable to Naomoto HYS-5.

| FCP# | DESCRIPTION | PRICE (1+) |
|----------|---------------------------------|------------|
| AHI-4125 | AH-100G Gravity Feed Steam Iron | \$129.00* |

*Prices are subject to change, without notice.

best."

LITTLE GIANT SPRAY GUN

Don't settle for imitations when you can buy the original. Operates on any pressure from 40-150 lbs. without adjustment. Non-corrosive, non-drip. Made in the U.S.A.

| FCP# | DESCRIPTION | PRICE (1+) | PRICE (3+) |
|----------|------------------------|------------|------------|
| SSG-9500 | Water Gun Only | \$16.95 | \$15.85 |
| SSG-9505 | Water Gun with 5' Hose | \$24.85 | \$24.15 |
| SSG-9510 | 5' Hose Only | \$9.95 | \$9.50 |

IRON RESIN

Demineralizer. Iron Resin is used with gravity feed steam irons. It improves results by cleansing impurities and hard water deposits. Resin changes color when used-up. Easy and convenient to use. Use one bag per bottle.

| FCP# | DESCRIPTION | SIZE | PRICE (1+) | PRICE (2+) |
|----------|-------------|-----------|------------|------------|
| AHI-4150 | Iron Resin | 1 lb. bag | \$15.85 | \$13.95 |

INDUSTRIAL STEAMER

It saves the start-up time for steam generation and works so efficiently in all operating environments with its immediate steam emission. UL and UCA approved component parts increases further reliability and durability.

| FCP# | DESCRIPTION | PRICE (1+) | PRICE (2+) |

“For the best quality, sheet after sheet...insist on Fabricare lint rollers.”

PRESSING

Lint Rollers

LINT BUSTERS® RETAIL LINT ROLLERS

Start maximizing your bottom line with our stylish retail lint rollers. Our Lint Buster® Lint Rollers are made with an extra tacky adhesive tape for maximum pickup and long lasting power. Every lint Roller individual sheet has one dry edge for easy peeling and disposable. By design, one dry edge gives you more pick-up area than other lint rollers! The adhesive extends all the way to the bottom of each roller so you don't miss any spots! Our Lint Busters® Lint Rollers are great for the pickup of lint, pet hair, or almost any unwanted particles on all types of clothing, furniture, car seats, floors... the uses are endless!

hanging around."

FOAM SHOULDER GUARDS

Use these foam shoulder guards to stop garments from slipping off the hanger. Also fits the 18" large hangers - PERFECTLY!

| FCP# | DESCRIPTION | COLORS AVAILABLE | PRICE (1+) | PRICE (8+) |
|----------|-----------------|---|------------|------------|
| FSG-2950 | Assorted Colors |  | \$9.98 | \$7.58 |
| FSG-2955 | Solid Colors |  | | |

* 500 per box.

SHOULDER GUARDS - TWO STYLES

Using Shoulder Guards is another way to show your customers how much you care. There are two styles to choose from: standard and cover-all. The standard is easy to assemble and is the most popular style. The cover-all folds over the entire top of the hanger (front & back). Hangers without shoulder guards leave your customer's garments looking unfinished. Your customers will know they have spent their money wisely when you use shoulder guards.

| FCP# | DESCRIPTION | PRICE (1+) | PRICE (2+) | PRICE (4+) |

DEEP KEEPSAKE PRESERVATION KIT

Our Deep Keepsake Box is an acid free preservation box. This is a wonderful preservation and storage box that we have carried for many years and continues to be one of our most popular boxes today. This wedding gown preservation kit comes with everything you need to preserve gowns with very full skirts or long trains. When packing textiles, you should always use a preservation box that fits the garment properly. Do not smash the dress into a too small box which can damage fabric fibers.

Our deep wedding boxes come fully assembled with:

- 1 viewing window
- 1 sturdy outer shipping carton with handle
- 48 sheets of acid free tissue paper
- 1 roll white tape

| FCP# | DESCRIPTION | SIZE |

REGULAR OR DEEP KEEPSAKE PRESERVATION KIT

Our Golden Keepsake Box, like all our storage boxes, is an acid free preservation box. This preservation kit comes with everything you need to preserve floor length bridal gowns, costumes, quilts, band and military uniforms as well as prom dresses. When packing textiles, you should always use a preservation box that fits the garment properly. Do not smash the dress into a too small box which can damage fabric fibers.

Our Golden keepsake wedding boxes come fully assembled with:

- 1 viewing window
- 1 sturdy outer shipping carton with handle
- 24 sheets of acid free tissue paper
- 1 bust form

| FCP# | DESCRIPTION | SIZE |

...let it be you
that they remember!"

ECONOMY PRESERVATION KIT

Our traditional economy wedding gown box is attractive in its design, and handles more of today's gowns. It is constructed of a strong neutral pH board. It features smooth finished edges and a beautiful design on the outer box. Our Heirloom wedding boxes come fully assembled with:

- 1 viewing window
- 1 sturdy outer shipping carton with handle
- 24 sheets of white acid-free unbuffered tissue paper
- 1 acid-free sealing tape (156" length)
- 1 bust form

HELPFUL MAINTENANCE TIP

ODOR PREVENTION FROM YOUR MACHINE

DAILY

- Add 1 quart of fresh water to separator.
- Check separator for lint, scale, dirt, and clean if necessary.
- Check solvent level in still for possible overfilling.
- Drain still residue (as often as distillation requires)
- Remove and clean lint bag.
- Inspect lint bag for holes. Replace if worn.
- Check solvent flow from condenser to separator and remove debris if flow is impaired.
- Use LAIDLAW BUFF. This product is a slow release, powdered solvent additive that reacts with unstable fatty acids to neutralize and modify the cleaning system's pH. Using BUFF will eliminate the source of odor, prevent system corrosion, swales and garment ornamentation. It will deodorize at the same time.

WEEKLY

- Clean lint and dirt build up from steam coil or steam chest in still.
- Check solvent tanks for lint and water then remove immediately if present.
- Remove lint from machine reclamation heads.

MONTHLY

- Drain and clean water separators.

QUARTERLY

- Check condensing coil on still for lint-clean if needed.
- Check steam sweep for leaks-replace if needed.
- Inspect condenser coil water strainer on machines, remove debris.
- Remove lint from reclamation heads.

HELPFUL SPOTTING TIPS

REMOVE TOUGH YELLOW STAINS

(Always test an obscure area first)

1. First do regular spotting techniques to the stained area.
2. Finish the job with steam.
3. Apply 35% hydrogen peroxide to stained area.
4. Apply ammonia (26%) to accelerate. (8 oz. of ammonia should be mixed with 4 oz. of Tergit in a 12 oz. bottle.)
5. Fog area with steam (a foaming action should occur).
6. Add more peroxide if needed.
7. Refog area if needed.
8. Flush area out with steam.
9. Apply rust remover or acetic acid (28%). Acetic acid should be mixed 8 oz. acetic acid with 4 oz. of Tergit in a 12 oz. bottle.
10. Flush area thoroughly. Dry with air and vacuum.
11. Apply Laidlaw leveling agent to wetted area.
12. Wait about 15 minutes before cleaning.
13. SMILE-IT WORKS!

REMOVE PIGMENTED STAINS-BALL POINT INK

1. Apply P.O.G. Work over clean towel. Blot loosened pigment with clean cloth. Repeat, work stain gently until soft. Tamp and rerun or....
2. Apply WETSPO. Repeat step 1 procedure. Tamp with brush, flush with solvent and rerun; or flush and feather with steam.
3. Apply BANTAN. Allow time to react. Flush with water. Feather with steam.
4. Apply TERGIT then few drops of ammonia and tamp, flush with water, feather with steam.
5. Apply hydrogen peroxide. Flush with water. Safe on whites. Test colors first.

WHY AND HOW TO USE A LEVELING AGENT.

Fabricare Choice distributor representatives find many dry cleaning customers who complain about redeposition problems, water rings, and other easily eliminated problems if a leveling agent was used.

Leveling agents should be used on light colored garments after being flushed out with a steam gun before dry cleaning. By applying the leveling agent after you have used the steam gun, you will prevent any "hard" rings from forming and any water left in the fabric will be suspended by the leveling agent.

Most leveling agents need to sit about 15 minutes before the garment is placed in your machine.

Use Laidlaw "LEVELING AGENT" for perc plants or Laidlaw "HYDROCARBON LEVELING AGENT" for DF2000 and petro machines.
