

## Section 1 - Identification

Product Name: ECLIPSE (80019)

ITD, Inc.  
 ORENDA Brands  
 1827 Auger Drive  
 Tucker, GA 30084  
 770-939-5544

**Emergency Phone: 800-535-5053**

Product Use: Institutional and Industrial Powdered Starch imparts a quality fabric hand (stiffness) when fabric is ironed

## Section 2 - Hazards Identification

### GHS Ratings:

Health hazard not  
 otherwise classified

DST

Warning! Product becomes a combustible dust when finely divided and suspended in the air. Keep away from sources of ignition, sparks, and open flames.

### GHS Hazards

### GHS Precautions

### **Signal Word:**

There are no GHS ratings that apply to this product at this time.

## Section 3 - Composition, Information on Ingredients

Chemical Name	CAS number	Weight Concentration %
Corn Starch Powdered	9005-84-9	80.00% - 90.00%

## Section 4 - First Aid Measures

**Inhalation:** If dust from the material is inhaled, remove the affected person immediately to fresh air. Call a physician if symptoms develop or persist.

**Eye contact:** Rinse with water. Get medical attention if irritation develops and persists

**Skin contact:** Rinse skin with water/shower. Get medical attention if irritation develops and persists.

**Ingestion:** Rinse mouth. If ingestion of a large amount does occur, call a poison control center-immediately.

**General information:** Direct contact with eyes may cause temporary irritation. Treat symptomatically. If you feel unwell, seek medical advice (show the label where possible).

## Section 5 - Fire Fighting Measures

Flash Point: N/A

LEL:

UEL:

**Dust explosion properties for B820 corn starch:** Pm(bar) 7.8, dP/dt(bar/s) 498, Kst(bar.m/s) 135, M.I.E.(Cloud) {mJ} 500-1000, M.I.T. (Cloud)(C) 410-420, M.E.C.(g/m3) 200-250

**Suitable extinguishing media:** Water fog. Foam Dry chemical powder Carbon dioxide (CO2). Use water spray to prevent dust-air mixtures.

**Unsuitable extinguishing media:** None known.

**Specific hazards arising from the chemical:** During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters: Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

**Fire-fighting equipment/instructions:** In the event of fire, cool tanks with water spray

**Specific methods:** Cool containers exposed to flames with water until well after the fire is out.

**General fire hazards:** Product becomes a combustible dust when finely divided and suspended in air. Keep away from sources of ignition, sparks, and open flames. Use only in well-ventilated areas. Provide adequate dust control.

## Section 6 - Accidental Release Measures

**Personal precautions, protective equipment and emergency procedures:** Keep unnecessary personnel away. Avoid inhalation of dust from the spilled material. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

**Methods and materials for containment and cleaning up:** Minimize dust generation and accumulation. If sweeping of a contaminated area is necessary use a dust suppressant agent which does not react with the product. Sweep up or vacuum up spillage and collect in suitable container for disposal. Collect dust using a vacuum cleaner equipped with HEPA filter. For waste disposal, see section 13 of the SDS. Following product recovery, flush area with water.

**Environmental precautions:** Prevent further leakage or spillage if safe to do so.

## Section 7 - Handling & Storage

**Precautions for safe handling:** Minimize dust generation and accumulation, Provide appropriate exhaust ventilation at places where dust is formed. Avoid breathing dust. Avoid contact with skin and eyes. Avoid prolonged exposure. In case of insufficient ventilation, wear suitable respiratory equipment. Practice good housekeeping.

**Conditions for safe storage, including any incompatibilities:** Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in original tightly closed container. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS). Guard against dust accumulation of this material.

## Section 8 - Exposure Controls/Personal Protection

Chemical Name / CAS No.	OSHA Exposure Limits	ACGIH Exposure Limits	Other Exposure Limits
Corn Starch Powdered 9005-84-9	Table Z-1 PEL: 5 mg/m <sup>3</sup> Respirable fraction PEL: 15mg/m <sup>3</sup> Total Dust	TWA: 10 mg.m <sup>3</sup>	Not Established

**Appropriate engineering controls:** Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Ventilation should be sufficient to effectively remove and prevent buildup of any dusts or fumes that may be generated during handling or thermal processing. If engineering measures are not sufficient to maintain concentrations of dust particulates below the Occupational Exposure Limit (OEL), suitable respiratory protection must be worn.

**Biological limit values:** No biological exposure limits noted for the ingredient(s).

Individual protection measures, such as personal protective equipment

**Eye/face protection:** Use tight fitting goggles if dust is generated.

**Hand protection:** Not normally needed.

**Other:** Wear suitable protective clothing.

**Respiratory protection:** Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits.

**Thermal hazards:** Wear appropriate thermal protective clothing, when necessary.

**General hygiene considerations:** Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
